

# DIGIS/M-5, 温度湿度探头, 5针

名称: DIGIS/M-5

长度 (cm)  
 接口类型MiniDIN5针接口  
 精度±0.4℃  
 湿度精度±2.5%RH  
 温度湿度范围-10~+60℃, 0~95%RH

参数

|                                                               |               |
|---------------------------------------------------------------|---------------|
| Temperature measurement range                                 | -10 to +60 °C |
| Temperature measurement accuracy                              | ± 0.4 °C      |
| Temperature humidity measurement range (without condensation) | 0 to 95°RH    |
| Relative humidity measurement accuracy                        | ± 2.5 % RH    |
